

November 2017

Parents/Guardians:

As winter is quickly approaching we want to share with you our process for cancelling buses in inclement weather. The safety of our students and staff is our main priority.

While we know there will be circumstances when buses are cancelled, we want to ensure you that we will do our very best to keep schools open. When buses are cancelled there is still meaningful work and learning occurring in our classrooms. To see if a school bus is cancelled or delayed or whether your school is closed, please visit <https://ourschoolbuses.ca/>

When schools are open to students during inclement weather, school pick up time at the end of the day remains the regular dismissal time.

If you choose to keep your child at home, please contact the school at 519-271-9740.

We believe:

Schools should be accessible and open to our students whenever possible.

We believe:

And research shows that what teachers do each and everyday in their classrooms with students has the greatest impact on student achievement.

We Believe:

Weather absences should be a rare occurrence at schools.

Our Goal:

To serve our students on as many school days as possible while maintaining safety in winter conditions.
